

The Scope and Sequence outlines which Learning Outcomes (LOs) are reported on in each trimester. It informs teaching and learning.

Teachers must ensure that multiple opportunities are provided for students to develop and work towards mastery of the LOs reported on during the allocated trimester. They must ensure that the same skills are revisited, reinforced and further developed throughout the year.

As the skills outlined in the LOs are interrelated and multifaceted, teachers should also look for opportunities to build skills in the preceding trimesters to provide optimal opportunities for students to achieve mastery. In Trimester 3 all the LOs apart from the ones being assessed can be reported on if the teacher wants to record a change in the level of achievement. The Integrated Strand Task (IST) and the Product (PRO) are two words used by the Assessment Recording Tool and they mean 'tasks'. When it says 'IST PRO' the teacher decides if the skill is taught and assessed through the IST task or the Product task, depending on the students' needs and ability.

**Reporting Key**

	reported on for the Trimester / enter E, D, M, N or nothing for these LOs
	reviewed and re-reported on (if changes are observed)
	not reported on in the trimester but records kept when appropriate (OBS might be mentioned)
